## MINI EXPANSION "THE STONEMASON'S WAGER"

*Bet on which monument will be the grandest at the end of the game! If you are correct, you'll be awarded with precious bonus points.*

With the exception of the changes described here, the rules of the base game remain the same.

Place this expansion card next to the site boards during setup.

In a **2- or 3-player** game, **only the first space** below each site shown on the card may be used. In a **4-player** game, **both spaces** below each site on the card may be used.

During his or her turn, a player **may** take a stone of his or her color from the **quarry** (not from his or her supply sled) and place it on any vacant space on this expansion card. Each player may do this **only once per game**. By placing a stone, the player is **betting** that the **corresponding site** will have the **most stones on it at the end of the game**. This wager is optional: a player is not required to place a stone on the card during the game.

**At the end of the game, the number of stones on each of the 4 sites** is determined.

For the site with the **most stones**, the player occupying the first space below this site on the card (the space on the left) receives **5 points**, and the player on the second space receives **3 points**.

For the site with the **second most stones**, the player occupying the first space below it receives **3 points**, and the player on the second space receives **0 points**.

If multiple sites **tie for the most stones**, all players on the corresponding first spaces receive **3 points**,

and the players on the second spaces receive **0 points**.

If multiple sites **tie for the second most stones**, they receive **0 points**.

***Imhotep:** The legendary architect of the Egyptian monuments. His awe-inspiring structures and brutal tactics earned him divine status among ancient Egyptians. Can you match his ruthless determination to build the most revered monuments?*

**For 2-4 players, ages 10 years and up**
